B2B Content & SEO Strategist

alaaboghdady37@gmail.com | +20 122 102 0715 | Cairo, Egypt | linkedin.com/in/alaa-boghdady-3876b7203

PROFESSIONAL SUMMARY

B2B content marketer with hands-on experience creating technical, educational, and lead-supporting content for engineering and technology businesses. Experienced in social media strategy, technical blog writing, WordPress publishing, on-page SEO with AIOSEO, content calendars, and translating complex services into clear customer-facing narratives. Combines marketing execution with an AI/technology background, enabling credible content for technical, SaaS, engineering, and AI audiences.

CORE SKILLS

B2B Content Strategy | SEO Content | Technical Writing | WordPress | AIOSEO | Topic Planning | Blog Writing | LinkedIn Content | Social Media Strategy | Content Calendars | Copywriting | Canva | AI-Assisted Content Workflows

PROFESSIONAL EXPERIENCE

B2B Content Marketing & Digital Marketing Specialist | Systems Corner Trading (SCT) Apr 2026 - Present

- Created B2B content for ELV and low-current solutions including CCTV, access control, structured cabling, fire alarm, PA, netwo parking/LPR, and smart systems.
- Wrote and published technical long-form content, including a Fiber Optic vs Copper (Cat6) article, and developed search-oriented topics around access control and critical infrastructure technology.
- Planned educational, problem-led, case-study, product, webinar, and thought-leadership content for KSA/MENA audiences.
- Worked with WordPress and AIOSEO to improve content structure, metadata, readability, and search-oriented publishing.
- Supported vendor-registration and corporate communication tasks, strengthening familiarity with enterprise buyers and B2B messaging.

B2B Marketing & Content Specialist | Integrated Engineering Systems (IES) **Feb 2025 - Present**

- Built and managed the company's social presence across LinkedIn, Facebook, Instagram, and X, establishing a consistent B2B voice for BIM consulting and engineering services.
- Planned and wrote technical content on BIM coordination, clash detection, quantity takeoff, shop drawings, LOD levels, and construction workflows.
- Developed bilingual campaign copy, recruitment posts, recurring content concepts, and seasonal communications while maintaining brand consistency.
- Supported company positioning and employer branding through page setup, visual direction, content calendars, and audience-focused messaging.

SELECTED CONTENT & SEO WORK

- Technical content portfolio spans BIM, clash detection, LOD, CCTV, access control, fiber vs. copper, network reliability, PA systems, and intrusion/security solutions.
- AI/technical domain knowledge includes Python, LLMs, RAG, AI agents, OCR, NLP, and machine learning - useful for credible AI/SaaS and technical content.

AI & TECHNICAL EXPERIENCE

AI Engineer Trainee | SustainGRC May-Jun 2026 (6 weeks)

- Built enterprise AI workflows using Python, LLMs, RAG, AI agents, OCR, NLP, FastAPI, and backend integrations - providing str for AI/SaaS and technology marketing.

NLP Intern / AI Projects | Cellula Technologies **Sep 2026 - Present**

- Built and evaluated NLP/deep-learning workflows and AI demos, strengthening practical understanding of AI products and technical communication.
